Water, Air, and Soil Solution

Volume 184 · Number 1–4 · September 2007

EDITORIAL

Beneficial bacteria and bioremediation
M.H. Saier, Jr. **1**

Identifying the Growth Limiting Physiochemical Parameter for Chives Grown in Biologically Treated Graywater
B. Vairavan · W.A. Jackson · C. Green · A. Morse **5**

Determination of Ultra Trace Level of Uranium in Ground Water of Different Geo-Chemical Environment by Adsorptive Stripping Voltammetry
R.K. Singhal · V.M. Joshi · J. Preetha · R. Karpe · A. Kumar · A.G. Hegde **17**

The Geochemistry of Ombrotrophic *Sphagnum* Species Growing in Different Microhabitats Of Eight German and Belgian Peat Bogs and the Regional Atmospheric Deposition
H. Kempter · B. Frenzel **29**

Geochemistry of Coalbed Natural Gas (CBNG) Produced Water in Powder River Basin, Wyoming: Salinity and Sodicity
R.E. Jackson · K.J. Reddy **49**

A Comparison of $^{18}O\delta$ Composition of Water Extracted from Suction Lysimeters, Centrifugation, and Azeotropic Distillation
M.A. Figueroa-Johnson · J.A. Tindall · M. Friedel **63**

Tracing Groundwater Flow Systems with Hydrogeochemistry in Contrasting Geological Environments
J.J. Carrillo-Rivera · I. Varsányi · L.Ó. Kovács · A. Cardona **77**

Phytoremediation Technology: Hyper-accumulation Metals in Plants
P.K. Padmavathiamma · L.Y. Li **105**

Investigation of Past and Present Multi-metal Input along Two Highways of British Columbia, Canada, Using Lead Isotopic Signatures
H.F. Preciado · L.Y. Li · D. Weis **127**

Activated Carbon Produced from Waste Wood Pallets: Adsorption of Three Classes of Dyes
D.C.W. Tsang · J. Hu · M.Y. Liu · W. Zhang · K.C.K. Lai · I.M.C. Lo **141**

Dynamics and Characteristics of Fluorescent Dissolved Organic Matter in the Groundwater, River and Lake Water
K.M.G. Mostofa · T. Yoshioka · E. Konohira · E. Tanoue **157**

Emission of Volatile Organic Compounds during Composting of Poultry Litter
N.G. Turan · A. Akdemir · O.N. Ergun **177**

Paleolimnological Records of Nutrient and Metal Profiles in Prehistoric, Historic and Modern Sediments of Three Lakes in North-eastern Germany
U. Selig · T. Leipe · W. Dörfler **183**

Influence of Agricultural Land Use and Management on the Contents of Polycyclic Aromatic Hydrocarbons in Selected Silty Soils
P. Oleszczuk · J. Pranagal **195**

Effects of Copper on the Sorption of Phthalate Esters to Yellow River Sediment
N. Xu · J. Ni · W. Sun **207**

Validation of Transfer Functions Predicting Cd and Pb Free Metal Ion Activity in Soil Solution as a Function of Soil Characteristics and Reactive Metal Content
T. Pampura · J.E. Groenenberg · S. Lofts · I. Priputina **217**

Phytoextraction of Heavy Metals by Eight Plant Species in the Field
P. Zhuang · Q.W. Yang · H.B. Wang · W.S. Shu **235**

Oil Spill Simulation and Validation in the Arabian (Persian) Gulf with Special Reference to the UAE Coast
A.A. Elhakeem · W. Elshorbagy · R. Chebbi **243**

Interactions between Essential Nutrients with Platinum Group Metals in Submerged Aquatic and Emergent Plants
D.B. Diehl · Z.E. Gagnon **255**

Sequential Extraction of Lead from Grain Size Fractionated River Sediments Using the Optimized BCR Procedure
R.A. Sutherland · F.M.G. Tack **269**

Measurement of Atmospheric Mercury Species with Manual Sampling and Analysis Methods in a Case Study in Indiana
M.R. Risch · E.M. Prestbo · L. Hawkins **285**

Effects of Silviculture Using Best Management Practices on Stream Macroinvertebrate Communities in Three Ecoregions of Arkansas, USA
S.B. McCord · R.S. Grippo · D.M. Eagle **299**

Diazinon Mitigation in Constructed Wetlands: Influence of Vegetation
M.T. Moore · C.M. Cooper · S. Smith Jr. · R.F. Cullum · S.S. Knight · M.A. Locke · E.R. Bennett **313**

Effects of Copper on Nitrogen Assimilation in Copper-tolerant and Non-tolerant Populations of *Elsholtzia haichowensis* S.
M. Li · Z. Xiong · L. Dai · Y. Huang **323**

The Influence of Heavy Metals and Mineral Nutrient Supply on *Bituminaria bituminosa*
D.J. Walker · M.P. Bernal · E. Correal **335**

Impact of Field Application of Treated Wastewater on Hydraulic Properties of Vertisols
M.A. Gharaibeh · N.I. Eltaif · B. Al-Abdullah **347**

Gas-phase Diffusive Tracer Test for the In-Situ Measurement of Tortuosity in the Vadose Zone
G.R. Tick · C.M. McColl · I. Yolcubal · M.L. Brusseau **355**

Instructions for Authors for *Water, Air, and Soil Pollut* are available at http://www.springer.com/11270.
